responsibility in every job. Any new project motivates me gain new knowledge and experience

In work I rate highly `
- Honesty
- Teamwork
- Punctuality
- A responsibility
- Time management
- Interpersonal communication

WORK EXPERIENCE

FRONTEND DEVELOPER

ROCKET SYSTEMS   Jul.2023 - Now

- As a frontend developer at Rocket Systems, my primary focus is on developing applications using React.js and TypeScript, as well as creating mobile applications with React Native. React.js is a popular JavaScript library for building user interfaces, and TypeScript adds static typing to JavaScript, providing better code maintainability and catching errors early in the development process. n my role, I collaborate with the design and backend teams to translate user interface mockups and wireframes into fully functional and responsive web applications. I utilize my expertise in React.js and TypeScript to write clean, efficient, and modular code that adheres to industry best practices and coding standards.

FRONTEND DEVELOPMENT TUTOR

GROUP 404   Nov.2022 - Apr.2023

What am I doing here?
- I teach FrontEnd development
- HTML
- CSS
- SCSS/SASS
- Javascript

SMART CODE

FRONTEND DEVELOPMENT

2021

YERVAN STATE COLLEGE OF INFORMATICS
